INTERVIEW SUMMARY

This interview summary is to document for the record a brief telephone conversation between Applicant's undersigned representative and Examiner Matthew Demicco in which the submitted response to a final office action was briefly discussed in response to a call initiated by Applicant's representative to make sure that the response was received and would place the application in condition for allowance.. Applicants' representative thanks the Examiner for the opportunity to briefly discuss the response. The interview summary is presented in the format suggested by the Patent Office.

11. **Summary of Interview Discussion**

Applicants undersigned representative indicated that he had called to make sure the response to the Final Office Action had been received and that it would be sufficient to put the application in condition for allowance given that the six month date for the response to the office action was approaching.

The Examiner indicated that he did not have the physical file present but reviewed an electronic copy of the response. The Examiner indicated that it appeared to respond in a manner that would overcome all the outstanding rejections and objections but that he could not reach a formal conclusion with regard to the allowability of the case without discussing it with the Primary Examiner.

The Examiner indicated that if, upon reviewing the response further, he became aware of any minor wording or grammatical changes that would be needed to place the application in condition for allowance he would consider entering them by Examiner's amendment.

Applicant's undersigned representative thanked the Examiner for his time in reviewing the response.

Respectfully submitted,

September 20, 2004
